Singer/songwriter **Maverick Sabre**'s third album *When I Wake Up* is **out now** via **FAMM**. The powerful and personal new album includes features from Grammy nominated artists **Jorja Smith** and **Chronixx**. Sabre shared emotive videos for two of his singles from the album "**Her Grace**" feat. Chronixx and "**Drifting**" earlier this year. With the new album Sabre set out to tell poignant and emotional stories like the struggles women face that often go unnoticed or unaddressed by society. With the video for "**Her Grace**" Sabre and director **Shaun Grace** wanted to reflect the song's message by focusing on the day-to-day struggle of a mother and child and the emotional strength needed to endure the cycle of domestic-abuse.

The video for "Slow Down" feat. **Jorja Smith** focuses on both artists playing characters from vastly different backgrounds, Sabre a cab driver and Smith his customer. We see their worlds and lives collide through the lens of passing street lights, rear-view mirrors, raindrops, and impressive cinematography.
